

PART 1: GENERAL

1.1 Summary

Section includes written specifications for the Dismount® Scooter Rack.

1.2 Quality Assurance

- A. Manufacturer Qualification:
1. A manufacturer experienced in manufacturing and producing commercial bicycle parking racks similar to the desired specification described for this project and with a record of successful in-service performance.
 2. Product Options: The manufacturer will be able to produce several finish and color options, and types of bicycle racks from a single source or from resources able to provide product options of like quality in both form and function.
 3. Manufacturer Service Options: The manufacturer will be able to present product specific drawings of the bicycle racks size, shape, dimensional requirements, and weight.
- B. Installer Qualifications: Experienced installer has completed installation of bicycle racks similar in specifications and to the extent indicated for this project.

1.3 Submittals

- A. Product Information: Must contain physical descriptions such as bicycle parking capacity, dimensions, shape, installation hardware requirements, and finish options for each bike rack.
- B. Installation Drawings and/or Installation Video: Details installation instruction for the designated bicycle rack. Drawing packages and submittals can be supplied by Ground Control Systems.
- C. Product Verification: Able to Submit finish samples for review and verification upon request.
- D. Manufacturer's Project References: Able to provide a minimum of three references for whom the firm provided similar or comparable services during the last 5 years and a description of the services provided.
- E. Warranty: Submit manufacturer's standard warranty.

1.4 Delivery, Storage, and Handling

- A. Delivery: In order to ensure shipments are received undamaged, a thorough inspection must be made and noted on the B.O.L.
- B. Storage: Bicycle racks should be stored in their original packages or containers until they are ready for installation.
- C. Handling: Before and up to installation, bicycle racks should be handled with sufficient care in order to prevent any finish damage.

1.5 Warranty

- A. Manufacturer's Warranty: Scooter racks carry a one year limited warranty against defects in materials and workmanship beginning on the date they are received.

PART 2: PRODUCTS

2.1 Manufacturer

Provide bicycle lockers manufactured by Ground Control Systems®, 708 Alhambra Blvd, Sacramento, CA 95816, 800-630-7225. Fax: 866-532-9049 Website: www.groundcontrolsystems.com.

2.2 Materials

- A. Welded Cross Bar Assembly: ASTM A36 plate steel (3/16")
- B. Edge Guards: Black edge guards that insert into the Dismount's slot system to prevent metal-to metal contact with the parked scooter.
- C. Dismount Leg Assembly: ASTM A36 Steel (1/4")

2.3 Finishes

- A. Silver Polyester Powder Coat

2.4 Space Use

- A. Setbacks:
 - 1. Front of rack to wall: minimum 13"
 - 2. Parallel to side wall: minimum 13"
 - 3. Rack to rack; center of last slot to next rack slot: 26" minimum, 28" recommended
 - 4. Loading zone: recommended 48"

2.5 Product Details

- A. Welded Cross Bar Assembly:
 - 1. Patented offset slots: secure the stem of the scooter when parked. They are covered with black edge guards to protect the scooter from metal to metal contact.
 - 2. Two Crossbar Supports
- B. Dismount Leg Assembly:
 - 1. Two leg bases (left and right)
 - 2. Anchor plate: allows the Dismount® Scooter Rack to be anchored to the surface.
 - 3. Wheel Chock: secures the front wheel of the scooter to eliminate scooter rollout as well as handlebar conflict.
- C. Hardware:
 - 1. QTY: 8 Carriage Bolts " - 16 x 3/4" RHSN, HD Galvanized
 - 2. QTY: 8 Flat Washer ", HD Galvanized
 - 3. QTY: 8 Hex Nut " - 16, HD Galvanized

PART 3: EXECUTION

3.1 Examination

Examine footprint to ensure conditions are adequate for installation. Do not proceed with installation if conditions are not adequate for installation. Notify the project manager if conditions are unsatisfactory.

3.2 Preparation

Make sure the location of the racks is flat, level, square, accurate for alignment, and correctly located for the installation of the bike racks. Shimming may be necessary for tapered and uneven grades.

3.3 Installation

Surface Installation: An above ground mount that is attached to the base material through the product anchor plate and anchors. A WAK4 Anchor kit is required for concrete surface mount installations. A PAK4 Anchor kit is required for Asphalt/Pavement surface mount installations.

3.4 Quoting

- A. Product Specification: Make sure the product item, finish options, installation hardware, fasteners, and expected lead time have been included in the estimate.
- B. Product Pricing: Quotes are in US Dollars and valid for 90 days.
- C. Product Pricing: Quotes for Special Orders are valid for 30 days. (Special orders are purchases containing non-stocking products, custom colors, or quantities higher than what is typically on hand.
- D. Shipping Pricing: Shipping Quotes are estimates and only good for 30 days - cost may fluctuate up to 25%.

3.5 Freight

- A. Dismount Scooter Racks can be shipped UPS and in some cases freight LTL, depending on quantity on order. Call Ground Control Systems at 1-800-630-7225 for a formal quote.
- B. Shipment Pricing: Estimates are good for 30 days; contact a Ground Control Systems representative for a current price list.

3.6 Purchasing

- A. Product specification: Make sure the product item, finish options, fasteners, and expected lead time have been included in the estimate.
- B. Pricing: Estimates are good for 90 days (30 days for special orders); contact a Ground Control Systems representative for a current price list if the estimate has expired.
- C. Shipping Pricing: Shipping Quotes are estimates and only good for 30 days - cost may fluctuate 25%.
- D. Placing an order: You can order via phone 1-800-630-7225; Fax 1-866-532-9049; Email - info@groundcontrolsystems.com. Or, if submitting purchase orders, mail to: 708 Alhambra Blvd, Suite 200, Sacramento, CA, 95816.
