

BIKE RACKS

Hoop Runner™

INVERTED U SURFACE MOUNTED BIKE
PARKING RACKS

Hoop Runners are Inverted U style bike racks available in two styles; in-ground mount (HR100) and surface mount (HR101). Each is constructed of thick HSS 1.9" OD round steel tubing and the 2 90 degree radius bends makes the Hoop Runner an attractive and functional bike rack. All of our Hoop Runner bike racks are also available in rail mounted options as 6 or 8 bike capacities.
